**The Cumberland County Department of Health is announcing additional H1N1 clinics. The clinics are as follows:**

**Downe Township Elementary School – Tuesday, January 12, 2010  
4 pm to 6 pm**

**Lakeside Middle School Gymnasium: Thursday, January 21, 2010  
4pm to 6pm**

**Bridgeton High School – Monday, January 25, 2010  
4 pm to 6 pm**

---

The Health Department is encouraging all Cumberland County residents to attend the clinic that is in their area rather than going to the first one offered. We are doing this to ensure shorter lines, shorter wait time and a calmer experience for everyone.

**Clinics are open to all residents of Cumberland or Salem County seeking first or second doses.** Children aged 9 and younger are supposed to get a second dose at least 28 days after the first dose to make sure they have full immunity. There is no loss of immunity from waiting longer than 28 days for the second dose; however, if a child gets their second dose before the recommended wait time, they may not be fully immune. Anyone who received a H1N1 shot also received a yellow card as a record of this first dose. Parents bringing their children for a second dose are encouraged to have this card as proof of a first dose to ensure they waited long enough between doses. Your child may still be vaccinated if you forget or have misplaced this card, however, please be prepared to answer questions about their first dose.

Consent forms are available online at [www.cshealth.org](http://www.cshealth.org) to be filled out ahead of time and they will also be available at the entrance of the clinic. For more information, please check [www.cshealth.org](http://www.cshealth.org) or call 856-327-7602.
